Maxakalí is spoken in the eastern Brazilian region of Minas Gerais by about 1200 people. In this problem your task is to match words and phrases to their English meanings, whose identifying letter (A, B, etc) you should write in the first column before the corresponding Maxakalí expression.

Maxakalí		English	
	ka'õgãhã	A.	cover
	ka'ok	B.	eye
	kuxa	C.	eyelid
	kuxa ka'ok	D.	foot

Pronunciation Notes: A tilde (~) above a vowel means that it is pronounced nasally. The letter <x> represents a sound like English 'sh,' and the apostrophe ' represents a glottal stop. Other letters are reasonably similar to their equivalents in English.
